WAREHOUSE VOLUNTEER

Objective:
Warehouse Volunteers help our construction sites operate smoothly and efficiently by pre-building house components and preparing materials in the Atlanta Habitat warehouse, as well as by leading Saturday wall building.

Outline of Responsibilities: Volunteers build components and prepare materials that will become part of Atlanta Habitat homes. Some tasks such as cutting blocks, assembling window kits and building window frames are more simple, while others such as building mailbox posts, attic boxes and porch railings are more complex and require skill and/or on-the-job training. Saturday volunteers help lead other volunteers in the wall building process.

Schedule:
Wednesdays and Thursdays: 9 a.m. – 2 p.m.
On these days we engage skilled volunteers who build components that go into our homes. Prior construction experience is required for these days. You will “shadow” an experienced Warehouse Volunteer until you are ready to complete a task on your own.

Fridays: 9 a.m. – 2 p.m.
We typically prep the warehouse for building walls for our house starts on Saturday. We also do other cleaning and painting. This is a good way to see the type of work we do in the warehouse to help decide if you’d like to help us on other days.

Time Commitment: We ask all Warehouse Volunteers to commit to working an average of at least two days per month.

Qualifications:
• Passion and enthusiasm for Atlanta Habitat’s mission
• Willingness and desire to learn; dedication to working safely
• Must be at least 18 years old
• Volunteers must sign a Release and Waiver of Liability online once per year
• A willingness to use power tools

To get started:
1) Attend Atlanta Habitat’s Volunteer Orientation.
2) Contact Ty Mejia, Assistant Warehouse Manager, at tyrone.mejia@atlantahabitat.org to sign-up for a shadow day.

Although we wish we could accommodate everyone, to prevent overstaffing, please be sure that you are on the schedule before going to the Warehouse.
